

Our Process

We follow a structured approach to ensure seamless execution and collaboration:

- ④ **Step 1: Requirement Analysis**
Understanding project scope & client specifications
- ④ **Step 2: 3D Model Development & Coordination**
Creating accurate BIM models for all disciplines
Running clash detection & resolving conflicts
- ④ **Step 3: Drawings & Documentation**
Delivering shop drawings, fabrication drawings & construction documents
- ④ **Step 4: Review & Quality Control**
Strict QC checks to ensure accuracy & compliance
- ④ **Step 5: Final Delivery & Support**
On-time submission with post-delivery support

Engineering Solutions Digitally Delivered

About Dyndigi

Dyndigi Engineering Services is a leading provider of BIM and engineering solutions, specializing in Building Information Modeling (BIM), CAD drafting, and digital transformation for the AEC industry. We help contractors, consultants, and architects enhance project efficiency through precision, technology, and innovation.

- ④ **Founded in 2020 with a mission to provide engineering solution to construction sector**
- ④ **Delivering high-quality engineering solutions globally**
- ④ **Driven by digital excellence & cutting-edge technology**

Visit: www.dyndigi.com

Our Expertise

We offer comprehensive BIM & CAD solutions across all project stages:

BIM & 3D Modeling Services

- ④ 3D BIM Modeling (Architectural, Structural & MEP)
- ④ Clash Detection & Coordination
- ④ BIM Execution Plan
- ④ Scan to BIM
- ④ 4D/5D Construction Simulation
- ④ VR/AR-Based Construction Services
- ④ Revit Family Creation

Engineering Drawing Services

- ④ General Arrangement (GA) Drawings
- ④ Rebar Shop Drawings
- ④ As-Built Drawings
- ④ Architectural & Structural Shop Drawings

Dyndigi Advantages

Why choose Dyndigi Engineering Services?

- ④ **Industry Experts**
A highly skilled team with in-depth technical knowledge
- ④ **Advanced Technology**
Leveraging Revit, AutoCAD, Navisworks, and more
- ④ **High Accuracy & Precision**
Delivering error-free engineering solutions
- ④ **Cost-Effective & Scalable**
Tailored services for projects of all sizes
- ④ **On-Time Delivery**
Fast turnaround with strict quality control
- ④ **End-to-End Support**
From concept to completion
